## BEAUTY BENEFITS

BRIXY bars are packed with premium hair and skin care ingredients and pH balanced for healthy hair and scalp. The bars are sulfate-free using gentle cleansers and moisturizers, meaning they are safe for color treated hair. The bars deliver exceptional results across all hair types, whether straight, curly or coily.

## PLANET BENEFITS

Zero plastic packaging means not adding trash to our oceans and landfills. We use the minimal amount of packaging, which is readily recyclable (or compostable!). Our bars last longer than water-based products, delivering more for your money and conserving the planet's resources along the way.

## OUR STORY

BRIXY was founded by a team well-versed in creating safe and effective products. With our expertise in identifying products with harmful chemicals and introducing safe alternatives, we helped lead the safe products movement. Along the way, we were successful in disrupting product categories from baby bottles to sunscreen on the issue of toxic chemicals.
