

Care PLUSTM

Care PlusTM Icaridin Insect Repellent is an Icaridin-based, DEET-Free Insect Repellent that provides safe, effective and long-lasting protection against mosquitos, ticks, and black flies.

Care PlusTM Icaridin Insect Repellent lasts up to 12 hours for mosquitos and ticks and 10 hours for black flies, DEET at 30% concentration lasts up to 6 hours

DEET-Free formula, found to be less irritating than insect repellents containing DEET. Will not damage synthetic materials.

Care PlusTM Icaridin Insect Repellent can be used on adults and children from 6 months and older.

Care PlusTM Icaridin Insect Repellent repels ticks that may carry Lyme disease, and mosquitoes that may carry West Nile Virus.

OUR STORY

Care PlusTM has been a market leader in insect repellents in Europe for over 25 years. This respected brand is now available in Canada. Icaridin, also known as Picaridin, is the active ingredient in Care PlusTM Icaridin Insect Repellent. Safe, effective and long-lasting protection against mosquitos, ticks, and black flies.

CARE PLUS[™] ICARIDIN INSECT REPELLENT

Care Plus Icaridin 20% can be used on adults and children from 6 months and older. In contrast, DEET 30% is not recommended for children under 12 years.

Long Lasting: Care Plus Icaridin 20% lasts up to 12 hours for mosquitos and ticks and 10 hours for black flies, DEET at 30% concentration lasts up to 6 hours.

Gentle On Your Skin: Care Plus Icaridin 20% is less irritating to skin than DEET.
