PERFECTLY UNREFINED

**At Taza Chocolate we make stone ground chocolate.** Cacao is so complex in flavor that we want to let it shout loud and proud. That is why we do less to bring you more. We stone grind organic cacao beans into perfectly unrefined, minimally processed chocolate with bold flavor and texture, unlike anything you have ever tasted.

## CHOCOLATE WITH TRUE GRIT

We make perfectly unrefined, stone ground chocolate from bean to bar at our Somerville, MA chocolate factory. Our unique chocolate-making techniques are all about minimal processing, to let the bold flavors of our organic, Direct Trade Certified cacao shout loud and proud.

We use traditional Mexican stone mills, called molinos, to grind our cacao. The hand-carved stones that turn inside these mills preserve the bright, fruity flavors of the beans, and create a chocolate that's bold, rustic, and satisfyingly gritty -- unlike any other chocolate you've tasted.

**Taza is a pioneer in ethical cacao sourcing.** We were the first U.S. chocolate maker to establish a third-party certified Direct Trade Cacao Certification program. We maintain direct relationships with our cacao farmers and pay a premium above the Fair Trade price for their cacao. We partner only with cacao producers who respect the rights of workers and the environment.
